

# Decline to Sign I-1552

## **HARMFUL:**

I-1552 would repeal Washington State's popular, long-standing legal protections from discrimination for transgender people who deserve the same basic protections as everyone else.

## **INEFFECTIVE:**

Repealing discrimination protections won't do anything to improve safety. There have not been any increases in public safety incidents in gender-segregated areas since the law went into effect. Harassment and indecent exposure in bathrooms are already crimes.

## **UNENFORCEABLE:**

I-1552 infringes on everyone's right to bodily privacy. Any of us could be subjected to self-appointed restroom cops demanding to see body parts before allowing access to the facilities.

## **Who is behind I-1552?**

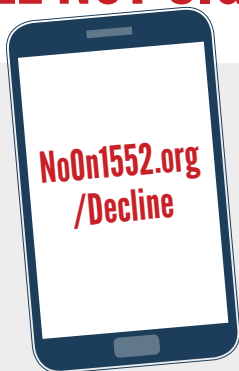

Just Want Privacy is a political committee closely tied to anti-LGBTQ extremist groups. *(Source: Associated Press)*
